

Around the World

Can you travel around the world in only five days? You can at The Durham Museum this summer! We will “visit” all seven continents and explore the oceans through cultures, landmarks, animals and more. Get ready for an adventure!

Camp Construction

Put on your tool belt and get ready to learn about the fascinating world of architecture, engineering and construction! Local companies Boyd Jones, BVH Architecture and Alvine Engineering will help us explore how buildings get designed, engineered and built through fun, hands-on activities.

Creation Station

Calling all creators and makers! This camp is your go-to stop for exploring inventors, artists and more. Topics will range from transportation and pop art to sculptures and toys, so there is sure to be something for everyone!

Culinary Creations

Who’s hungry? This tasty week of camp will explore food science, cooking and our exhibition, *The Lunchbox: Packed with Pop Culture*, featuring hundreds of unique lunchboxes from decades past. Bring your appetite!

Full S.T.E.A.M. Ahead

This popular week of camp will explore all things STEAM (Science, Technology, Engineering, Art and Math), by featuring one letter of the acronym each day of the week. Crafts, games, projects and more will be the perfect kickoff to the summer camp season!

Movers and Shakers

Get ready to move and shake with this active week of camp! Enjoy everything from relay races to dancing as you stay busy with movement. You might even learn a bit about the history behind popular games and sports that you’ve grown to love!

Myths and Legends

The Loch Ness Monster? Swash-Buckling Pirates? Kings and Queens from distance lands? We’ll dive deep into the stories surrounding these characters, both real and fictional, during this mythical week at camp.

Omaha Staycation **SPECIALTY THEME**

Need a summer vacation? Look no further than your own hometown! These adventurous weeks will take campers on a “staycation” to the hottest attractions in Omaha. Back by popular demand, we’ve decided to feature not one, but two unique lineups of popular stops in the metro! All transportation and admission is included in the cost of the camp, for a truly stress-free vacation right here in town. Keep an eye on our camp website for announcements of this year’s lineups!

Scientific Exposition

Need some flexibility during the Fourth of July holiday week? Take advantage of our Scientific Exposition! Each day offers a special look at a unique topic that will spark the scientist in all of us! You can sign up for the entire week or individual days:

- Monday:** Crazy Chemistry
- Tuesday:** No Camp (July 4)
- Wednesday:** Stellar Space
- Thursday:** Wacky Weather
- Friday:** Zany Zoology

Towers of Tomorrow, featuring LEGO® Bricks

A week of camp all about LEGO® Bricks?! Sign me up! Our summer exhibition, *Towers of Tomorrow with LEGO® Bricks*, partners some of the world’s most dazzling and innovative skyscrapers with the world’s most popular building brick. The exhibit features 20 astonishing skyscrapers from all around the world, and campers this week will enjoy behind-the-scenes time in the exhibition. Plus, additional LEGO® challenges, crafts and games!

Wizard Academy **SPECIALTY THEME**

Pack your trunk! This popular annual camp will celebrate the wizard world through crafts, lessons, games and more. Join us for the sorting hat ceremony on Monday, the awards ceremony on Friday and enjoy the adventures in between! Please note, Wizard Academy will be offered twice during the summer. Both programs are identical.
