

All Aboard

Put your conductor hats on! Where else better to learn about all things trains than Omaha's former Union Station? Campers will tour all the train cars we have on exhibit, plus create their own locomotives and learn about other wheeled vehicles.

Around the World

Can you travel around the world in only five days? You can at The Durham Museum this summer! We will "visit" all seven continents and explore the oceans through cultures, landmarks, animals and more. Get ready for an adventure!

Art in Action!

The Durham Museum is one of only a few places in Omaha to view beautifully preserved art deco style décor. Campers will learn about the art of building design in our Great Hall. There will also be discussion and crafts surrounding process vs. product-based art. Don't wear white this week – things may get messy!

Becoming Jane **FEATURED CAMP**

The Durham Museum is excited to present our newest temporary exhibit, "Becoming Jane: The Evolution of Dr. Jane Goodall." We will explore this interactive exhibit and learn more about Jane Goodall's life and legacy. Campers will keep a journal, just like Jane, and explore different animals around the world, learning and recording their findings during this interactive, animal-filled week. Please note, this camp is offered twice during the summer. Both programs are identical.

Dig into Dinosaurs

This week is for the dino-lovers out there! Explore bones, fossils, eggs and all thing prehistoric. This week will include lots of science and exploration. We will investigate the difficult questions, like why did T-Rexes have such short arms, at what age did dinosaurs live to, and of course, why did they go extinct? What will you discover?

Explore, Investigate, Discover!

Let your natural explorer instincts take over this week! Touch, taste, smell and listen; what will you discover? How do your fingerprints make you unique? What substance makes candy dissolve? How can we grow crystals? We will be answering

these questions and much more during this fun week of exploration.

LEGO® Camp

This week of building and fun will culminate in a showcase of campers' designs on Friday. All week, campers will use problem-solving skills, fine motor skills and tons of creativity to work together as a group and build a showstopping presentation. Each group will decide if they want to build a park, a city, a specific building, a neighborhood, etc., and then work on the fine details. In addition to the big build, campers will have fun with some LEGO®-themed crafts and science experiments along the way.

Omaha Staycation **SPECIALTY THEME**

Need a summer vacation? Look no further than your own hometown! These adventurous weeks will take campers on a "staycation" to the hottest attractions in Omaha. Back by popular demand, we've decided to feature not one, but two unique lineups of popular stops in the metro! All transportation and admission is included in the cost of the camp for a truly stress-free vacation right here in town.

S.T.E.A.M.

This popular week of camp will explore all things STEAM (Science, Technology, Engineering, Art and Math). Crafts, games, projects and more will be the perfect addition to your holiday week.

Monday: Spectacular Science

Tuesday: Terrific Tech & Excellent Engineering

Wednesday: Amazing Art

Thursday: No Camp (July 4)

Friday: Memorable Math

Wizard Academy **SPECIALTY THEME**

Pack your trunk! This popular annual camp will celebrate the wizard world through crafts, lessons, games and more. Join us for the sorting hat ceremony on Monday, the awards ceremony on Friday and enjoy the adventures in between! Please note, this camp is offered twice during the summer. Both programs are identical.
